PROFESSIONAL EXPERIENCE

METAL (YC-Backed Startup) Software Engineer (Level 2)

Karachi, PK
Oct 2023 - Present

I started off as a part-time resource at Metal and became a full-time team member in February 2024.

I worked as a core member of the frontend engineering team at Metal. I was promoted to a Level 2 Engineer within 6 months of working full-time.

- Built and maintained intuitive UI for the product
- Collaborated with the design & product team for new features
- Optimized the performance of the web app
- Mentored junior engineers/interns
- Reviewed PRs of fellow team members
- Participated in product grooming sessions
- Wrote well-tested, well-documented & maintainable code

BYTECORP TECHNOLOGIES Mid-Level Software Engineer

Karachi, PK
Sept 2022 - Jan 2024

I started off as a part-time resource in my Senior year at university and continued full-time after graduation. I was promoted to a Mid-Level Engineer within 6 months after that.

- Built and maintained intuitive and user-friendly UI for multiple projects
- Collaborated with the design team to ensure good UX
- Optimized the performance of the web apps
- Worked with 3D models and animations for their client "SHAED"
- Setup a base code library for multiple micro-frontends for their client "SHAED"
- Mentored junior engineers/interns
- Reviewed PRs of fellow team members

TECHSOL360 Frontend Engineer

Karachi, PK
Aug 2021 - Aug 2022

Worked as a part-time resource during my Junior & Senior years at university. I was the only frontend engineer in the team and built the frontend for their product "Learn360LMS" from scratch using VueJS.

- Learnt VueJS from scratch and building the frontend for their product
- Implemented a complex state management system using Vuex
- White-labelled the product for multiple tenants with different themes
